Free Successful Plastic Surgeries

Consistent efforts of a NRI,

Would you like to be a part of it's success story?.....

## **Isn't it a Miracle?**

One NRI Doctor performing  
2 lakh Free Plastic Surgeries  
For cleft lip, cleft palate, squint  
and facial scar /( for facial  
deformities)

For poor children  
and All Free  
During the last 35 years  
continuously, without a gap.

## **And each surgery is a Life Changing Event.**

Infants born with cleft lip or  
other facial deformities are killed  
or abandoned by their parents to  
avoid social stigma, or they die,  
unable to suckle milk.

If at all these children survive  
and grow they live a life of  
outcast, suffer from depression  
and inferiority complex.  
When they grow into adulthood,  
are unable to work, make a  
living or get married.

## **Future is denied to them.**

Plastic surgery is the only  
solution in these cases.

Unfortunately, plastic surgeons are few in number, they are based in cities and these “surgeries are very expensive” Beyond the reach of poor and rural people.

Luckily for them, Dr. Sharadkumar Dicksheet, the India born surgeon who lives in USA and BJS (Bharatiya Jain Sanghatana) the torch bearing social service organization in India have joined hands to organize

## **Free Plastic Surgery Camps**

In several places in the country for the last 25 years targeting the rural poor children suffering from congenital Facial Deformities.

To date 2,40,000 Surgeries have been performed with God gifted hands of Dr. Dicksheet with tireless efforts of hundreds of dedicated volunteers of BJS in collaboration with renowned private and public hospitals, their medical staff and the infrastructure provided by Maharashtra Government.

## **This is a great achievement**

one may think  
and yes, a big YES,  
but we are able to target only a small  
proportion of children who are born with  
congenital malformations.

Birth prevalence of cleft lip and cleft palate  
alone is on an average is 30,000 per year.  
We feel sad for those children who  
unfortunately are beyond our reach.

## **Who would give them a helping hand with a scalpel?**

Are you willing?

Lets us work together.

Join us at BJS.....
