## CONCEPT MISSION DHARAVI

(Supporting Government Hospitals in Dharavi)

Dharavi in Mumbai is the world's largest and most densely populated slum settlement, spread over 2.4 square kilometers and home to more than eight lakh people. It is arguably the most cramped space in Mumbai, which itself is one of the world's densely populated cities. In a public health emergency like the COVID pandemic, Dharavi is being closely watched across the world as the most vulnerable hotspot for infections

Dharavi had emerged as a major hotspot during the early phase of the COVID-19 pandemic in India. The spike in new infections in Dharavi created fear not just among the people living there, but among doctors, health workers, and volunteers fighting the pandemic. Government norms for social distancing were hard to follow in this locality due to the high congestion, proximate dwellings, and overcrowded streets. The advent of monsoon made the situation even more complex as spells of common cold, cough, and fever spread amongst people, making it hard to identify COVID symptoms.

#MissionDharavi aims to achieve COVID vaccination of all eligible categories of people in Dharavi within the shortest possible time, addressing one of the toughest vaccination challenges in Mumbai in Mission Mode. Being a slum settlement, the majority of the residents in Dharavi belong to the lower economic strata, characterized by low educational and economic backgrounds, lack of awareness on health, poor health-seeking behavior, and relatively higher levels of morbidities.

To achieve the challenging task of vaccinating the above population segment in Mission Mode, MCGM and BDC has implemented the following activities in Dharavi - Vaccination Registrations Booths, Free Medical Camps, Medicine Distribution to Doctors & Door-to-Door Vaccination Registration

## Registration Booths In Dharavi

Due to a scarcity of technological resources & a lack of the right guidance for many people, #MissionDharavi has made it possible to register for vaccination by the registration booths which are set up at buildings & lanes across Dharavi.

## Join us in this noble mission

BJS, CREDAI MCHI & Desh Apnaye has been extending support in every possible manner to guide the residents of Dharavi in vaccination booths, medical camps, door-to-door registrations & more. The reach via various digital mediums has also extended the awareness considerably. Technological advancements have also made it easier to get registered for vaccination in a convenient way & free of cost. #MissionDharavi plans to take advanced actions to prevent the slum settlement from becoming a flashpoint.
