

Students Assessment Programme (SAP IV)

www.bjssap.org

Introduction:

The SAP IV Test is a multi-dimensional test specifically designed and developed for the Student of standard IV. This test measures emotional, social, physical and intellectual growth of the student.

Need for the test :

Today's children have to face challenges of the rapid pace of technology, information explosion, media and general environment. Therefore, their intelligence and abilities are utmost tested. It has become increasingly difficult for parents to gauge the emotional, social, physical and intellectual growth of their children at this juncture. Acknowledging the potential talent and aptitude of children are imperative at this stage and age. If not done at right time, it could hamper the future of the child and prove detrimental to the child's progress and development.

Designing of the Test :

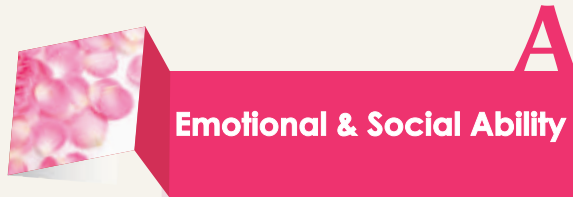

BJS has experience of working with children for over 25 years. Based on this, a highly professional in-house team, in consultation with an expert committee and in-depth research, has come up with this test. The test design is simple and is age appropriate for the children.

Process of the Test :

It is a simple test of three hours, for which the student requires no preparation. The format is multiple-choice - simple questions are followed by four options from which the child has to select an option according to his/her understanding. Parents/teachers can register their children for test online at www.bjssap.org or at BJS announced centres.

Test Attributes:

The test is divided in four groups: Emotional & Social Ability, Mental Ability, Health Awareness and Co-curricular Ability. These four groups are further subdivided into four sub-parameters each.

Emotional & Social Ability

- Emotional Intelligence
- Social Intelligence
- Habits & Behaviour
- General Awareness

Mental Ability

- Speed & Accuracy
- Observation
- Similarity
- Non Verbal Reasoning

Health Awareness

- Attitude to fitness
- Personal Hygiene
- Height
- Weight

Co-curricular Ability

- Listening
- Reading
- Word Sequencing

Benefits of the Test:

The current world of technological advancement is fast paced and places heavy demands on the intellectual ability and emotional stability. It is imperative to gauge our children's strengths and weaknesses at an early age to enable us to strengthen their foundation. This is what the SAP IV Test enables parents and teachers to gauge and then help their children to prepare for the future.

A) For students

- To become aware of computer-based training
- To experience simple and enjoyable test format

B) For parents

- To become aware of the child's overall growth.
- To take suitable remedial measures for the holistic development of the child.

C) For schools and teachers

- To seek comprehensive evaluation along different attributes of all students
- To plan student - specific focus areas for improved performance

Let us
together
support
students
to enhance
their strengths
and have better
future

More about BJS

Social Development

Family Matters

Pragmatic solutions for family related issues: successful nationwide pilot implementation; available as modules that can be replicated across communities, regions and governments

Educational Initiatives

EDUQIP

Educational quality improvement programs implemented in government and private schools

Mulyavardhan

Value education syllabus implemented in government schools

School Assessment

Robust yet flexible assessment framework for government and private schools

Disaster Response

Relief Operations

Nationwide network for quick response

Educational Rehabilitation

Speedy creation of infrastructure and support for complete education

- ❖ 25+ years of continuous work in areas of Social Development, Educational Initiatives and Disaster Response
- ❖ State-of-the-art infrastructure and technology
- ❖ Well established processes to support entire program and project life cycle
- ❖ Committed team of professionals and subject experts
